Single Page Application e-commerce CMS: SPA-Cart.

SPA-Cart: The Single-Page Solution for Faster E-Commerce

Slow loading times destroy online sales. SPA-Cart solves this by running your entire store as a Single Page Application.

Why Choose SPA-Cart?

- Zero Reloads: Checkout, cart updates, and product views happen instantly without page refreshes.
- App-Like Experience: Smooth CSS3 animations keep users engaged.
- Blazing Speed: Fully optimized to ace Google PageSpeed Insights.
- SEO-Ready: Uses clean URLs with no *.php extensions.
- Feature-Rich: 100+ built-in tools including wholesale prices, coupons, and blogs.
- Modern Stack: Built on PHP 8.x, MySQL, and Ajax with Stripe/PayPal integration.

Expertly Engineered

Developed since 2005 by Oleg Khorev, a lead engineer with 21+ years of experience. SPA-Cart delivers standardized, high-quality code and full customization that freelance alternatives cannot match.
